KEY INGREDIENTS

KERAMIMIC 2.0

Combines the best of science and nature for intelligent repair of damaged hair. Developed using advances in proteomics, Keramimic 2.0 contains the amino acid sequences of peptides that match keratin proteins found in cuticular and cortical regions of human hair. The highly functioning conditioning active provides targeted repair.

ARGAN OIL

Extremely rich in vitamin E and antioxidants, Argan oil is light and non-greasy and absorbs easily. It protects the hair from harmful environmental aggressors while caring for the scalp and restoring shine to dull, lifeless hair.
