## KEY INGREDIENTS

### GRAPSEED OIL

Moisturising and nourishing, grapeseed oil helps reduce the appearance of redness and inflammation and fight free radical damage to the skin's collagen and elastin. Assists in skin repair. It is also a mild astringent and contains antiseptic qualities.

### LECITHIN

Softening and soothing with excellent moisturising properties, lecithin helps hydrate the skin, while phospholipids present in lecithin attracts water from the air, further increasing hydration. with unique skin penetrating capabilities.

### TOCOPHEROL

An antioxidant and form of vitamin E, Tocopherol helps protect the skin from the damage caused by sun exposure, environmental pollution and natural aging. It contains moisturising properties to keep the skin soft, supple and smooth, reduces transdermal water loss (the movement of water through the epidermis), and contains anti-inflammatory and soothing properties.
