## KEY INGREDIENTS

### KERAMIMIC 2.0

Combines the best of science and nature for intelligent repair of damaged hair. Developed using advances in proteomics, Keramimic 2.0 contains the amino acid sequences of peptides that match keratin proteins found in cuticular and cortical regions of human hair. The highly functioning conditioning active provides targeted repair.

### QUINOA PRO

A multi-functional natural protein for hair-color retention, conditioning and protection. It improves hair color uptake for a more concentrated color, increases styling ease and shine for healthier looking hair.

### BLUE SEAKALE HC

A marine plant extract high in antioxidants that protects hair against heat, split ends and a lack-lustre appearance

### DAYMOIST CLR

A complex of natural plant derived active ingredients that supports the Natural Moisturising Factor (NMF) in skin, keeping it moisturised for up to 24 hours. Daymoist CLR also has a moisturising effect on hair which in turn improves the hairs elasticity, making it softer and more pliable and able to protect against heat stress and color fading.
