**CONTAINING RESURFACING ENZYMES, ALPHA HYDROXY ACIDS AND JOJOBA.**

## BENEFITS

- Repairs and nourishes dehydrated and damaged skin
- Improves appearance of facial scarring
- Diminishes the look of fine lines
- Tightens and firms surface skin

An advanced triple-action exfoliant to renew, smooth and nourish the skin. Face Scrub contains Lactic Acid and Malic Acid (Alpha Hydroxy Acids), advanced Skin Resurfacing Enzymes and Florabeads (Jojoba), to gently refine and restore the skin's texture and radiance.

**DIRECTIONS:** Apply to damp, cleansed skin and gently massage for up to 60 seconds. Rinse thoroughly before applying toner and moisturiser. Can be used up to 3 times a week. Discontinue using this product if a reaction occurs.

## KEY INGREDIENTS

### ROSE HIP OIL

Rich in vitamin C, this moisturising oil is beneficial in regenerating skin cells and assists in repairing dehydrated, prematurely aging and damaged skin. Improves the appearance of facial scarring and skin elasticity and strengthens capillaries and connective tissue.

### DERMAL RX SKIN RESURFACING COMPLEX (SRC)

an advanced approach to skin resurfacing and exfoliation without the irritation associated with aggressive chemical peels. SRC diminishes the appearance of fine lines and removes dry, flaky skin. Actively refines and restores skin texture and radiance.

### EASYLIANCE

A biopolymer naturally produced by micro-organisms living in specific plant roots. On application the polymer forms a matrix at the surface of the skin that tightens and smooths. It provides an immediate and visible lifting effect for smoother and younger looking skin.
