KEY INGREDIENTS

KERAMIMIC 2.0

Combines the best of science and nature for intelligent repair of damaged hair. Developed using advances in proteomics, Keramimic 2.0 contains the amino acid sequences of peptides that match keratin proteins found in cuticular and cortical regions of human hair. The highly functioning conditioning active provides targeted repair to the most damaged surfaces of the hair.

GLOSSYLIANCE

Composed of extracts of sugar cane and lemon zest and a mix of alpha hydroxy acids, this natural blend smooths hair scales and enhances shine and softness.

KERADYN HH

Breathes new life and movement into hair damaged by chemical treatments, heat styling and UV light. Keradyn HH enhances fibre alignment and reduces friction between hair strands for the freedom of movement that only healthy hair enjoys.
