## KEY INGREDIENTS

### OAT BETA GLUCAN

Soluble oat fibres that penetrate the dermis and epidermis to stimulate collagen synthesis, promote cell renewal, improve skin visco-elasticity and hydrate and rejuvenate the skin.

### SNAP-8 (ACETYL OCTAPEPTIDE-3)

A deep penetrating and powerful Amino Peptide that reduces the depth of wrinkles and facial lines caused by the contraction of facial muscles, and gives a more relaxed 'plump' appearance.

### PHYTOSQUALANE

A natural emollient that prevents trans-epidermal water loss and restores skin suppleness.

### EYESERYL SOLUTION

A tetrapeptide with anti-eyebag and anti-dark circle activity. It increases skin elasticity, fades dark circles and reduces puffiness by preventing liquid from accumulating under the eyes.

### MARIMOIST

A rare and precious marine-based biopolymer complex providing the ultimate in water release and textural sensation. MariMoist imparts a light, silky film that instantly hydrates, cools and soothes the skin, leaving it feeling moist and refreshed
