SKIN EXFOLIANT

75ml | Code 1119 | RRP \$38

RENEW | REFRESH | RESTORE

CONTAINING LACTIC ACID AND GLYCOLIC ACID.

BENEFITS

- Removes dead skin cells and dry spots
- Helps smooth wrinkles
- Fades hyperpigmentation and sun damage
- Improves skin tone and texture

A non-abrasive, leave-on exfoliant designed to give the skin a fresher, healthy look, while it evens the texture, tone and colour. Skin Exfoliant contains Alpha Hydroxy Acids - both Glycolic Acid and Lactic Acid - which work on removing and preventing the build-up of dead skin cells minimising fine lines, discolouration and dry spots. Contains no artificial fragrance or colour.

DIRECTIONS: Apply a thin layer of Skin Exfoliant to cleansed skin avoiding delicate areas such as eyes, nostrils and lips. Leave on for 5 to 10 minutes before rinsing off thoroughly. Can be used up to 3 times a week. Discontinue using this product if a reaction occurs.

KEY INGREDIENTS

LACTIC ACID

Lactic acid is a type of Alpha Hydroxy Acid, a naturally occurring fruit acid. Lactic Acid has been shown to increase the water-holding ability of the corneum layer of the skin, allowing for an improvement in fine lines.

GLYCOLIC ACID

Belongs to the class Alpha Hydroxy Acid (AHA), commonly known as 'fruit acids' and occurs naturally in sugar cane juice. It is considered to be the most effective AHA because it has a small molecular structure allowing it to penetrate the surface of the skin more readily.

INGREDIENTS: Water, Glycolic Acid, Lactic Acid, Cetearyl Alcohol & Cetearyl Glucoside, Cetearyl Alcohol, Sodium Glycollate, Sodium Lactate, Cetearyl Oliviate & Sorbitan Oliviate, Vitis Vinifera (Grape) Seed Oil, Stearic Acid, Beeswax, Xanthan Gum, Citrus Aurantium Bergamia (Bergamot) Fruit Oil, Citrus limonum (Lemon) Oil, Citrus Aurantifolia (Lime) Oil, Eucalyptus Globulus (Eucalyptus Gum) Oil, Phenoxyethanol & Ethylhexyl Glycerin.
