KEY INGREDIENTS

V1.0 2018

ABS POMEGRANTE STEROLS

Is capable of increasing moisture levels on the skin while enhancing the skin's barrier function to protect against environmental aggressors. It is a natural replacement for synthetic materials such as petrolatum and lanolin.

ROSEHIP OIL

Rich in vitamins A, B and C, fatty acids and omega 3 and 6, rosehip oil is exceptional at skin regeneration. It reduces scars and skin damage, minimises pores, improves skin tone and colour and fights the signs of aging.

BIOPHYTOSEBUM

Is a non-greasy active emollient from olives. It restores the suppleness of the epidermis and has good penetrating, moisturising and nourishing properties.

ABS RICE LIPIDS PLUS

Has excellent film forming benefits, minimizing trans epidermal water loss and contributing to improvements in moisturisation.
