KEY INGREDIENTS

DERMAL RX LUSHIELD

acts as a repairing, moisturising and anti aging agent. It detoxifies and protects against the collapse of the fibroblast (a cell found in connective tissue that produces collagen and other proteins found between cells), and stimulates production of new, non-fragmented collagen to provide substantial improvement to the appearance and health of aged skin.

NATURAL VITAMIN E

A powerful antioxidant that helps fight free radicals and reverse the signs of aging. Its restorative and anti-inflammatory properties help keep skin in good condition and looking younger for longer.
